EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Specification, line 6: -- now USPN 6,645,201 -- has been inserted after "2000".
2. Specification, line 6: "claims the benefit " has been deleted and -- is a CIP -- has been inserted after "which".

The following is an examiner's statement of reasons for allowance: The prior art neglects to disclose a method as claimed in claim 1, which includes a device with advanceable electrodes that permits simultaneous viewing of the entire targeted tissue region by a direct line of visual sight through a transparent sidewall (210, figure 19) while used in the anal canal. As such, claims 1,2 and 5-7 are allowed. On the other hand, Edwards (6,419,673) discloses a distal tip with a transparent region (118). This is limiting compared to the Applicant's claimed device (within the method claim), which includes an entire transparent side wall (210, figure 19) through which electrodes (216, figure 29) advance. It is this configuration that permits the method claimed in independent claim 1, thereby making the claim and its dependents allowable.

The application is a divisional of now USPN 6,645,201 in which an alternate embodiment of the device mentioned above is patented as well as related methods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter J. Vrettakos whose telephone number is 571-272-4775. The examiner can normally be reached on M-F 9-6.
